

Viral protein interaction with cytokine and cytokine receptor

Synaptic vesicle cycle

Viral carcinogenesis

GABAergic synapse

Polycomb repressive complex

Pancreatic secretion

Glycerophospholipid metabolism

Leukocyte transendothelial migration

TNF signaling pathway

Dilated cardiomyopathy

Rheumatoid arthritis

Hypertrophic cardiomyopathy

Focal adhesion

Hippo signaling pathway

Ras signaling pathway

PI3K–Akt signaling pathway

Cytokine–cytokine receptor interaction

Human papillomavirus infection

Parkinson disease

Biosynthesis of cofactors
